### SKILLS

Javascript, Typescript	● ● ● ● ○
Angular & Ionic	● ● ● ● ○
Git (Github, Bitbucket)	● ● ● ● ○
Laravel, MySQL	● ● ● ○ ○
Arduino	● ● ● ○ ○
Linux	● ● ● ○ ○
C, C++	● ● ● ○ ○
SFML	● ● ○ ○ ○
CMake	● ● ○ ○ ○
Docker	● ● ○ ○ ○
Music Composition (Beepbox)	● ● ● ● ○
Polyphone (Soundfront Editor)	● ● ● ○ ○

### REFERENCES

#### Dovlet Nazarov

- 👤 CTO at Stampede Design
- ✉ dov@stampede-design.com

### HOBBIES

- Programming (Native App Development)
- Exploring & learning computer science skills
- Composing music

### PROFILE

3 years of professional proficiency in frontend web technology, with a bit of experience in backend and dev-ops. In my free time, I like to mess around with compiled languages like Go or Rust, and other technologies like Docker or VPS services like DigitalOcean.

### EDUCATION

- Hibiscus International School (1st to 8th grade) | 2011 - 2018 | Malaysia
- Semesta Bilingual Boarding School (9th - 12th grade) | 2018-2022 | Indonesia

### WORK EXPERIENCE

#### Stampede Design

##### Intern (Part-time)

March 2021 - April 2022

- Developed web and mobile applications tailored to client requirements, utilizing Angular (HTML, CSS, Typescript) & Ionic framework technologies, with wide user bases of 500+ users.
- Utilized version control systems like Git (through Github Desktop & Sourcetree to manage and track changes to codebases of medium to large sizes, collaborating effectively with team members on project development.
- Collaborated with backend developers to seamlessly integrate front-end code with server-side logic and databases, ensuring robust and efficient application functionality.

##### Front-End Developer

April 2022 - Present

- Collaborated closely with UI/UX designers to translate design concepts into functional prototypes within practical boundaries, ensuring seamless user experiences across web and mobile platforms.
- Worked in tandem with back-end developers to integrate front-end code with server-side logic and databases, contributing to full-stack development projects of small to medium sizes.
- Implemented responsive design techniques to optimize web pages for various screen sizes and devices (from mobile to desktop), enhancing accessibility and user engagement.
- Conducted comprehensive testing and debugging of front-end code to identify and resolve bugs and other issues, ensuring high-quality deliverables.
- Documented code and development processes to facilitate knowledge sharing and future maintenance, ensuring project scalability and continuity.
- Identified and implemented performance optimizations to enhance the loading times and overall performance of web applications (up to 30%), improving user satisfaction and retention.
